Who Do You Call in a Medical Emergency?

New to the community and want to know how to get assistance in an emergency? The Stuttgart military community has several numbers which you should know, depending upon the particular situation.

The German Red Cross (DRK) provides ambulance service to the Stuttgart military community (the Patch Health Clinic has no ambulance service or capability). The DRK should only be used for genuine emergencies to prevent loss of life, limb or vision or to limit undue suffering. A true emergency is a condition that requires transportation by ambulance to prevent or minimize the risk of losing life or limb.

If a true emergency exists on- or off-post, call the Military Police at DSN 114 or 116 or civilian 0711-680-114 or 116. These two numbers are answered by the on-duty MP desk sergeant who will relay your request for ambulance service to the DRK for all on- and off-post emergencies.

You will be asked several questions by the desk sergeant and should be prepared to provide the patient's name, age, sex, nature of emergency, your telephone number and location (to include installation, street, building, apartment and room number, etc.). You should remain calm and stay on the line until you have answered all questions and hang up only after the sergeant does so.

Remember: Do not call or report to the Stuttgart Health Clinic for emergencies because they are not staffed or equipped to handle these situations. True emergencies which may require ambulance service can be categorized as heart attack, poisoning, severe bleeding, unconsciousness, difficulty in breathing or severe injury to the head or torso.
